

History and Social Science Textbook Adoption

Danville Public Schools invites all stakeholders to participate in a review of the proposed textbook adoption for K-12 History and Social Science. Samples of each proposed textbook can be found at the School Board Office. During this time, stakeholders will have an opportunity to review the considerations made when selecting each textbook as well as review the proposed ancillary materials that will support each textbook. We also invite you to provide feedback on each of the proposed textbooks. Please call Mrs. Crystal Jenson, Executive Administrative Assistant, at 434.799.6434, ext. 233, to schedule an appointment.
