Overview

Danville Public Schools believes in using data to make decisions for continuous improvement. “Take Off! With DPS” aims to launch students toward academic excellence by strengthening students’ confidence, enhancing their comprehension, and improving their overall academic performance. By offering specialized tutoring opportunities, we are committed to ensuring that every student has the opportunity to succeed academically.

Take Off! With DPS has been generated to support our strategic plan and to meet the expectations of VDOE’s All In Tutoring Initiative. It includes four components:

- Part One: Targeted Tutoring and Double Dosing - T2D2
- Part Two: Math and Reading Skills Academy - MARS Academy
- Part Three: March-April-May Better Achievement - MAMBA Mentality
- Part Four: Meaningful Engagement

Each component is described in detail below.

## Part 2: M.A.R.S. Academy

### Saturday Program

**Purpose**
Danville Public Schools believes in using data to make decisions for continuous improvement. The Math and Reading Skills (M.A.R.S.) Academy is a Saturday School Program for targeted tutoring for students in grades 3-12. It is a dedicated initiative designed to provide personalized support in math and reading. The M.A.R.S. Academy aims to launch students toward academic excellence in math and reading by strengthening students' confidence, enhancing their comprehension, and improving their overall performance in math and reading.

**Description**
- The program is designed for students “at-risk” and “not proficient” in grades 3-12, identified using growth and benchmark data
- Teachers are assigned ten students per class; all ten students come to tutoring, and students are placed in groups based on their level of understanding. Five students are placed in one group, and five students are placed in another group. Halfway through each tutoring session, students swap what they are working on, allowing each student to spend half of each session face-to-face with the tutor in a small group and half of each session applying their learning on the digital platform.
- Support for special populations
  - **Students with Disabilities:** Collaboration with EC Teachers

Revised October 23, 2023
to support identified students to meet their learning outcomes.
  ○ **English Learners**: Collaboration with EL Teachers to provide individual support to identified students to meet their learning outcomes.
